New Online Safety Program

TrainND has partnered with 360training to provide online safety courses. 360training is a global provider of compliance and workforce training technology solutions, servicing over 2,500 e-learning partners who together have trained more than 3 million users. These OSHA approved courses offer a quick, easy-to-use and economical way to receive your OSHA certifications. All students that complete and pass the class will receive a certificate. Various safety courses are offered and prices vary by course. To access a course listing, please visit the Williston State College Website at:

www.wsc.nodak.edu/workforcetraining

Group discount rates are available-please contact Deanette at 701-774-4246 for more information.
